1. A factory, known in the neighborhood as Fabryka Metalowa (Metal Factory), is located approximately 700 m. from the Rumia Zagorze railway station nine kilometers northwest of Gdynia, on the Gdynia-Wejherowo main road. On its northwest boundary the plant adjoins a tannery, and on the east, a State Motor Car Repair Works (formerly privately owned).
2. The grounds of the factory, which extend between the road and woods, cover an area of approximately 10,000 sq. m. A high brick wall surrounds the grounds, and armed Industrial Guards patrol outside.

3. no motor transports entering or leaving the factory. On the other hand, empty army trucks entering the grounds and subsequently the same trucks leaving, obviously loaded with cases which were visible, despite being covered with tarpaulins. The trucks coming from the factory looked very heavily laden.
